THE RUGGED ATLAS POINT-TO-POINT

6 Days | 385km | 7,200m Vertical Gain

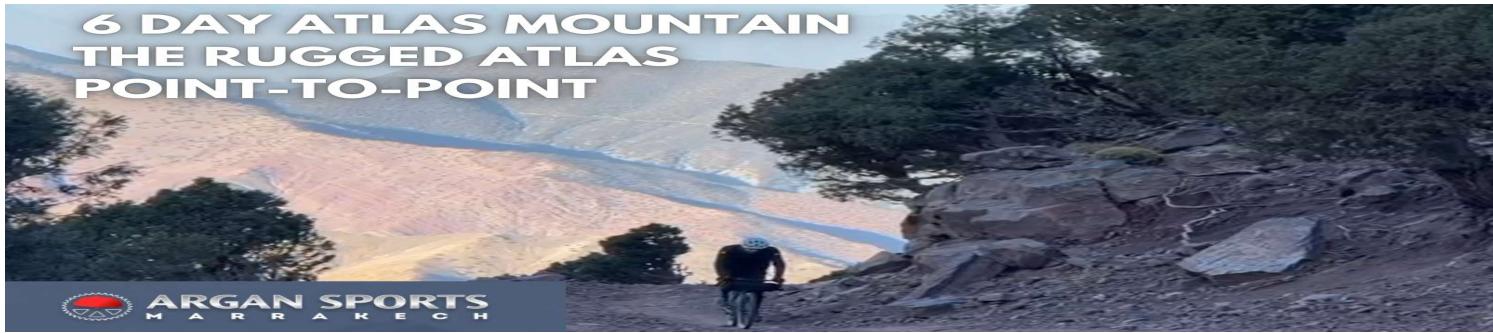

THE JOURNEY This is our most technical Atlas route—a point-to-point expedition that cuts deep into the remote heart of the mountains. You will climb past high-altitude shepherd huts and traverse ancient Berber villages where life follows the movement of the flocks. This is a journey of raw vertical gain and epic rewards, culminating in a "grand finale" of luxury.
